

## MORE FIERCE RIOTING

Illinois Governor is Asked to Restore Peace in Chicago.

## RESOLUTIONS FROM FEDERATION

Opposing Factions in Struggle Are Evenly Divided as Before—A Long List of Injured, Some of Whom May Die.

Springfield, Ill., May 6.—A delegation representing the Illinois and Chicago Federation of Labor called on Governor Deneen to place before him a copy of the resolutions adopted by the Chicago Federation of Labor, requesting the Governor not to send troops to Chicago until he had personally investigated the conditions. Governor Deneen told the committee no request for troops had been made upon him, but he did not indicate what course he would pursue if a request to send troops to Chicago should be made.

Chicago, May 6.—A furious strike riot which resulted in fatal injuries to a non-union driver and bruises to two policemen took place at the intersection of Harrison and Desplaines streets. A delivery wagon of the Fair, a large department store, which had made a trip across the West Side, had reached this place on its return. It was driven by Sidney Chambers, a colored man, and escorted by Policemen John Sharkey and James Kelly. A drunken man who had picked up a stone followed the wagon cursing the driver. He was soon joined by others and in a few minutes a crowd was around the wagon hurling bricks, stones and bottles. The rain of missiles was so furious that in a few minutes all the windows in a saloon in front of which the wagon passed were smashed. The policemen stopped the wagon and endeavored to reach a patrol box in order to send in a riot alarm, but they were driven back by showers of stones. Each was struck several times and Sharkey was partially stunned by a brick.

### CRISIS IS EXPECTED.

Wagons Will be Sent Out Regardless of Strikers.

Chicago, May 8.—The crisis in the teamsters' strike is expected to come soon. The State street merchants have decided to send out 1,100 wagons to make deliveries in all parts of the city. As far as possible these wagons will be guarded by deputy sheriffs and in some cases by the local police. It will be impossible for all of the wagons to be guarded by the deputy sheriffs but it is the intention to place two men on each wagon as far as the number of deputies already sworn in will permit. Sheriff Barrett had 200 deputies in service tonight and said that he thought this number would be ample for the work outlined. If it is not, it is said, he will conclude that the sheriff's office and the local police are not able to control the situation and a request will be made for the state militia at once. Governor Deneen has said that he will not order the troops unless asked by Sheriff Barrett, and upon the failure or success of the attempt of retail deliveries to be made tomorrow depends the coming of the troops.

Fifteen wagons were sent out Saturday by the large dry goods and department stores and all of them made deliveries without interruption. On each of these wagons rode two deputy sheriffs. It was the success of this attempt at delivering that prompted the stores to decide to send out tomorrow practically their full force of wagons.

Reward For Gail's Arrest. Recognizes Necessity of Reform. ATTENTION IS CENTERED.

Japanese Are Watching Closely Reports From Fleets.

Tokio, May 8.—Popular attention is now centered on the presence of the second Russian Pacific squadron in French waters. While the assurance of France relating to the Kamrahn Bay incident were generally accepted, the later discovery that the Russian ships continued their stay at Kamrahn bay and then entered other French ports has created a feeling of keen disappointment, rapidly growing deeply resentful, the local press charging France with bad faith and repeats the demands for independent action upon the part of the Japanese government. The conservative element is awaiting France's response in explanation, hoping that the government will finally expel the Russian Rear Admiral Rojstvensky from its waters.

### LONG AUTO BOAT RACE.

Algiers, May 9.—Seven auto boats started today in the long distance race from this port to Toulon. The boats left the harbor at 6 o'clock this morning. Lewis Nixon's Gregory, which was to have represented the United States in the contest, was not present. Every precaution has been taken to prevent mishap, two cruisers and seven torpedo boat destroyers accompanying the progress of the boats. A mail steamer which arrived here this afternoon reports passing the boats, two of which were being towed. Their arrival at Port Mahon is expected tomorrow.

## WARSAW SCENE OF BLOODSHED; TROOPS LOSE THEIR HEADS

Warsaw, May 3.—It is reported that a bomb was thrown here at 9:45 o'clock tonight on Marsalkow street. The soldiers, it is added, then fired three volleys. Details of the occurrence are not yet obtainable.

Warsaw.—Nearly one hundred persons were killed or wounded in disturbances in various quarters of Warsaw today. The troops apparently were uncontrollable, and violated all orders to act with moderation. They fired into the crowds of demonstrators, and workmen in retaliation resorted to the use of firearms and bombs. Many women and children are among the dead and dying. What approaches a reign of terror exists tonight, the city presents a most gloomy aspect and the temper of the entire community augurs ill.

The presence of numerous patrols of Cossacks cavalry and infantry are the only remaining signs of the lurking danger.

No untoward incident was reported until afternoon. The first disturbance occurred between 1 and 2 o'clock p. m., when a procession of several thousand workmen carrying red flags marched along Zelazna street. The demonstration was quite orderly and proceeded without molestation for some distance. Suddenly several squadrons of Uhlans appeared, but without interfering with the procession, and took up a position along the sidewalks while the workmen passed through the lines. Then a company of infantry approached from the

front and immediately the cavalry charged into the procession, driving it with the flat of their swords into a disorganized mass. When the cavalry withdrew the infantry fired a volley, whereupon the demonstrators turned and fled. The infantry continued to discharge volleys into the retreating shrieking multitude. Thirty-one persons were killed and many wounded, and of the latter it is believed 15 will die.

Another shooting is described as having been futile and unprovoked. Many of those who were killed or wounded were shot in the back, showing that they were running away when they were struck.

Another terrible scene was enacted at 5 o'clock p. m. at the corner of Ziota and Sosnowa streets when workmen fired from behind a wall at a patrol, which immediately opened fire on the passing crowds, killing or wounding twenty persons. The first bomb throwing occurred at 9:33, when a bomb was thrown into a Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed and two women who were leaving the station at the time were severely wounded by the explosion of the bomb. Cossacks and infantry fired a number of volleys and it is reported that many persons were killed or wounded. Troops surrounded the whole neighborhood. It has been impossible up to the present to secure any accurate information as to the casualties in this affair.

### PAT CROWE IN OMAHA.

Alleged Kidnapper of Eddy Cudahy Appears at Home of Scene.

Omaha, Neb., May 8.—Pat Crowe, the alleged kidnapper of Eddie Cudahy, son of the millionaire packer of Omaha, and for whose arrest rewards aggregating \$50,000 have at different times been offered, walked into the office of the Times-Herald at 1 o'clock this morning, accompanied by Thomas O'Brien, proprietor of the Henshaw Hotel of this city.

While there have been rumors of Crowe being in the vicinity of Omaha for several days, Chief of Police Donahue denied absolutely having any knowledge of his presence in the city and the rumors were taken by the public in a manner similar to former representations of his having been seen, and were given little consideration by the citizens of Omaha.

Crow telephoned the World-Herald office at midnight of his presence in the city and stated that he would call at the newspaper office. A short time afterward he appeared in company with Mr. O'Brien. Crowe, O'Brien and a representative of the World-Herald were closeted for nearly an hour, during which time Crowe told of his wanderings since he left the city, four years ago. Crowe stated that he had served in the Boer war, fighting with the Boers. He returned to this country after the war, and has lived continually, according to his statement, quietly in a South Side flat in Chicago. He says that he has been in Chicago nearly three years and that he has visited Omaha on three different occasions during that time.

### TO WIN SEA FIGHT.

Russia Now Banks Heavily Upon Its Naval Force.

St. Petersburg, May 9.—Admiral Nebogatoff's junction with vice-Admiral Grouchy as practically assured and hope for a successful issue in the approaching struggle for mastery of the sea is greatly encouraged. Nebogatoff is regarded as the Blucher of the situation and indeed, he is said to resemble him greatly in temperament. He may lack his strategy and finesse, but like the Prussian, he has built dog courage and is a born fighter who goes straight for the enemy.

If Vice-Admiral Kamimura, who, like Grouchy at Waterloo, fails to prevent a juncture of the Russian fleets, as the admiral here believes he has, the impression is strong that Vice-Admiral Togo will not dare risk an open battle against the united divisions of Rojstvensky and Nebogatoff, but will content himself with torpedo attacks and possibly a long range action, being prepared to draw off in the event that he is unable to make an impression.

Naval officers are prepared to see Rojstvensky lose half his convoy, but in face of the united divisions it is little or nothing in the way of opposition to the advance to Vladivostok and that he must be content with the aid of the army to make Vladivostok another Port Arthur. If the fleet reaches Vladivostok intact, however, naval officers here claim that victory is won. Although there is a little more than 100,000 tons of coal at Vladivostok, with the reinforcement of the fleet by the Gromobol Russia and Bogatry and the torpedo boats and submarines now in the harbor they claim that Rojstvensky could drive Togo off the sea and leave Field Marshal Oyama's army stranded in Manchuria.

Hundreds Seek Leases.—Hundreds of homeseekers and prospectors are flocking to the Kiowa-Comanche country to select leases of the pasture lands now to be opened for agricultural purposes.

### BRICK STRIKERS SAVAGE.

In Ugly Mood They Prevent Others From Working.

Poughkeepsie, N. Y., May 6.—The twelve hundred striking brick yard employees, mostly foreigners, made another demonstration today, marching from Dutchess Junction to Chelsea on the New York Central, armed with clubs and preventing all work from being resumed at thirteen yards in the district. The manufacturers held a meeting today and decided not to grant the demand of the strikers and called upon the sheriff to furnish deputies tomorrow when an attempt will be made to resume work.

Deputies were sent to the brick yard district this afternoon to arrest the leaders of the strike.

The strikers are in an ugly mood and trouble is feared.

### WINS IN TWENTIETH ROUND.

Jimmy Britt Wins Honors From the English Heavyweight.

Woodwards Pavilion, San Francisco, May 8.—San Francisco witnessed the first international championship pugilistic contest to be held in this city for a decade when Jimmy Britt, the Californian, won from Jabez White, England's premier lightweight. Britt got the decision in the 20th round. He could not knock the Englishman out, but stood punishment better and was away in the lead at the finish. It was a swift fight at the way through—better than this city has seen for many a day. Britt was more than the Englishman's equal, but the latter by clever work succeeded in evading much of the punishment. He was clearly the favorite of the crowd, as was evinced by the generous applause given him. Britt has worked the "favorite son" racket too much to please the people here.

According to the time-keeper, White was knocked out. The excitement was so great at the end of the round that nobody seemed to know exactly. The referee declared it was not a knockout.

### TO DESTROY THE DOCKS.

Second Attempt Was Made, But the Dynamite Failed to Explode.

St. Marys, Ohio, May 6.—A second attempt within a year was made today to destroy the docks of the Grand reservoir. Two charges of dynamite were placed, but one failed to explode. It was evidently the intention of the unknown miscreants to blow up the upper and lower gates and allow the sea of water to escape into the low lands and imperil the lives of many farmers. The charge under the upper gates failed to explode and a terrible disaster was thus averted. The explosion of the charge under the lower gate tore the gates from their fastenings and threw them clear out of the lock. The heavy stone masonry was badly wrecked and dead fish are scattered over the ground 200 feet from the lock. Thomas Carper, an old fisherman, was slightly injured by flying splinters.

### Wireless Messages Received.

Tsingtau, May 3.—The German cruiser Fuerst Bismark received off Tsingtau on April 30 a number of wireless telegraphic messages which are believed to have come from a distance of about 25 miles. The officers were unable to translate the message received.

### Accusations Unfounded.

Paris, May 10.—The critical tone of the British press concerning France's alleged breaches of neutrality in Indo-China brought out an emphatic general statement from the foreign office that the accusations are unfounded.

### Investigation of the Packers.

Very general interest has been manifested in the government investigation now in progress into the mode of conducting business by the large packers located in Chicago and elsewhere. Much has been written upon the alleged illegal and improper modes of business procedure connected with the packing industry; but it seems that so far no definite charge of any kind has been sustained and no proof of illegal or inequitable methods has been disclosed to the public. While a wave of severe criticism of this great industrial interest is now passing over the country it might be well to remember that the packers have had as yet no opportunity to make specific denial, the many indefinite charges of wrongdoing having never been formulated so that a categorical answer could be made.

The recent report of Commissioner Garfield, which embodied the results of an official investigation undertaken by the Department of Commerce and Labor of the United States, was a vindication of the Western packers, but this result having been unexpected attempts in many quarters to discredit it were made.

In view of the situation as it now stands, however, attention may properly be called to a few facts that owing to popular clamor are now being apparently overlooked. Fair treatment in this country has heretofore been accorded to all citizens whose affairs assume prominence in the public eye and some of the facts that bear upon the relation of the packers to the commerce of the country may at this time be briefly alluded to. It would be difficult to estimate the benefits gained by the farmers of the country resulting from the energetic enterprise of the packers, for whatever is of benefit to the farmer is a gain to the entire commerce of the country. And connected with their continuous aggressive work no feature perhaps has been more important than their efforts in seeking outlets all over the world for the surplus products of the farmer. Our total exports of agricultural products have gained but little in the past twenty years, and leaving out corn, the total of all other farm products was far less in 1903 than in 1891. But in packing house products there was considerable gain during this period, because an organized and powerful force has been behind them seeking new and broader markets.

Besides the benefits reaped by farmers on account of the enterprise and energy exercised by the packers in attaining commercial results by foreign trade, the great development in the manufacture of packing house by-products has added enormously to the value of all live stock raised in the United States. The waste material of twenty years ago, then an expensive by-product, is now converted into articles of great value, and, as an economic fact, this must correspondingly increase the value to the farmer of every head of cattle marketed at the numerous stockyards of the country. Let these facts be remembered while now it is so popular to regard the great packing industry as deserving of condemnation. At least it must be admitted that, so far, there is no adequate reason for the almost unanimous howl that may be heard everywhere in the face of the Garfield report above alluded to which practically exonerates the packers from the obscure and indefinite charges that have been for some time past made the subject of popular comment. — American Homestead.

## SEE A DARK CLOUD

Many Spaniards Seriously Object to Their King's Visit.

## THINK IT IS A GERMAN PLOT.

Kaiser Said to Have Offered a Tempting Bait to the Spanish Nation—Affair Handled Carefully to Avert a Storm.

Paris, May 9.—A cloud has arisen over the coming Anglo-French-Spanish celebrations attending King Alfonso's visit to France owing to the hostile attitude of a large element of the Spanish press against the king's giving this significant adherence to France's policy in Morocco. The affair appears to be taking all the diplomatic sagacity of Jules Cambon, the French ambassador to Spain, to avert a storm. Both the Republican and liberal elements in Spain contest the right of the premier and minister for foreign affairs to accompany the king on his mission, which they declare would commit the nation irreparably to the support of the French-Moroccan policy. They further assert that the court has nothing approved of the king nor the ministers can cast Spain's influence either way in the conflict now agitating Berlin, Paris and Fez.

The French view the agitation as being part of Germany's diplomatic maneuvering. They declare that the German campaign has for its object the revival of Spain's dream of restoring her ancient authority over the Moors and the houses giving Spain, instead of France, paramount influence in Morocco under the aegis of Germany's support. But notwithstanding the press campaign favorable to Germany, King Alfonso, the Spain premier, and other ministers are resolutely determined to carry out the visit and participate in its significant assurances of Spain's standing with France and Great Britain.

Despite official denials the feeling prevails in high quarters that M. Del Casse will not wish to retain the foreign office portfolio much longer. The cabinet situation is no longer attributed to Morocco, but to a divergence of views concerning who should control France's foreign policy. M. Del Casse's prestige throughout Europe naturally leads him to want a free hand, and M. Rouvier evidently desires to occupy a position analogous to that of Count Von Buelow, the German chancellor, in laying down foreign policies. The personal relations between the premier and the foreign minister remain most cordial, yet the diplomatic corps would not be surprised to see M. Del Casse step down before long.

The suggestion in Japanese press that Japan place an embargo on French merchant traffic in Indo-Chinese waters is not taken seriously here.

### IS IGNORING DEPARTMENT.

Lenapah Oil and Gas Company Dealing Directly With Indians.

Muskogee, I. T., May 9.—The Lenapah Oil and Gas Company, of Lenapah, I. T., is leasing Cherokee lands for oil and gas purposes, direct from the allottees and filing the same in the United States court at Nowata. The company is going ahead on the assumption that, in accordance with the recent ruling of the United States supreme court, where an Indian receives a patent to his land, he then becomes a citizen of the United States and is no longer a ward of the nation. The company has had but one lease approved by the department and is now proceeding to execute leases without the approval of Secretary Hitchcock.

It is understood that a representative of the government will be sent to Lenapah to arrest any person who attempts to drill on a lease not regularly approved by the department.

### TO COMPLETE ORGANIZATION.

Members of American Stock Growers' Association to Meet.

Denver, Col., May 9.—Today the leading stockmen from all parts of the country will assemble in this city to take up the work of concluding the organization of the American Stock Growers' Association. This association was partially formed during the annual convention of the National Live Stock Association held here in January last, when a split occurred over the question of limiting the membership of that association. Those who went into the new association were displeased with the admission to membership in the old association of packers, railroad representatives and persons of that class.

### Special Dispensation Given.

Rome, May 10.—Father Martin of the General Order of Jesus, is recovering from the recent amputation of his arm. Pope Pius gave him a special dispensation to celebrate mass without his right arm.

### Mayor Dunning Dead.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 3-4 pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.
